backframe

MADE IN EU design by KD

IT backframe prevede egregiamente al fissaggio, tra gli altri, di pannelli flessibili e sottili, come per esempio i semi espansi, il forex o l'alluminio, perchè assicura una tenuta perfetta, semplice ed estremamente sicura. particolarmente pratico è il sistema di livellatura che backframe offre e che può essere regolato fino a 10 mm, in modo che il vostro pannello sia sempre appeso diritto in modo perfetto, senza dover riforare il muro per riattaccarlo. offriamo backframe come set completo nei formati più comuni; in caso di richiesta sono disponibili altre lunghezze per formati su misure.

DE backframe sorgt als eine befestigung v.a. für flexible, dünne paneele z.b. aus hartschaum, forex oder aluminium für die nötige versteifung. zugleich befestigt der backframe ihr paneel sicher und einfach. besonders praktisch dabei ist die nivellierung fürs aufgehängte paneel, die vertikal bis zu 10mm unterschied reguliert, sodass ihr paneel immer gerade hängt ohne dass neu gebohrt werden muss. wir bieten ihnen backframe als komplettes set für gängige formate an. außerdem erhalten sie auch alle seitenlängen extra für weitere formate.

EN backframe is a mounting system especially for thin and flexible panels made of hard-foam, forex or aluminium. it helps to stiffen the panel, while mounting is easy and safe, the leveling system is particularly convenient for the mounted panel, that can even be up to 10mm, so that your panel will always be straight without drilling new holes. we provide you with complete sets for common formats. also available are all lengths extra to create new sizes.

cross struts can be mounted anytime thanks to the clever plug in system, the size 1400x1000 comes already with cross struts

monoframe

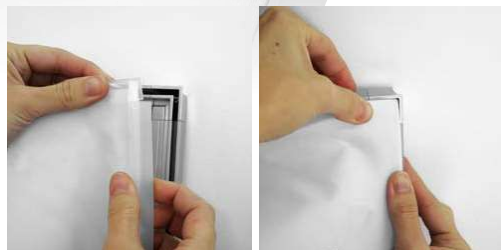

MADE IN EU design by KD

IT il monoframe è la soluzione perfetta per la decorazione e l'allestimento delle pareti grazie alla stampa di alta qualità su tessuto. il design discreto della cornice lascia l'immagine in primo piano. l'alluminio anodizzato color argento e gli angoli realizzati in metallo pressofuso garantiscono una lunga durata del prodotto, grazie alle strisce in silicone cucite al banner in tessuto la sostituzione dello stesso potrà avvenire in qualsiasi momento in modo facile, veloce e senza l'utilizzo di utensili.

DE monoframe ist die perfekte lösung für die dekorative wandgestaltung mit ihrem hochwertigem textildruck. ein schlankes design lässt den rahmen dezent in den hintergrund treten. das motiv steht im vordergrund. hochwertige materialien wie silber eloxiertes aluminium und metall-druckguss-ecken garantieren lange freude an diesem system. der textile banner wird dank der flachkeder schnell und einfach befestigt. so ist auch der austausch ohne demontage und werkzeug im nu erledigt.

EN monoframe is the perfect solution for your decorative wall elements with your high-grade print on fabric, a lean design keeps the frame in the background, while the image is in the center of attention. high-quality materials as silver anodized aluminium and die-cast metal corner connectors guarantee a long lifetime, the textile banner is easily mounted thanks to the silicone strips, thus the exchange is quick and easy without any tools anytime.

framframe wall

MADE IN EU design by KD

IT framframe wall è perfetto per una moderna decorazione delle pareti tramite banner in tessuto. i profili in alluminio anodizzato color argento sono dotati frontalmente di apposite cave per fissare il tessuto rivestito di strisce di silicone. frontalmente il profilo è visibile per soli 2mm, un cornice elegante ma discreta. internamente la struttura può essere irrobustita grazie a delle traverse di alluminio, che si possono aggiungere al sistema in qualsiasi momento, senza doverlo smontare.

DE framframe wall ist perfekt für trendige wand-dekoration mit bedruckten stoffbannern, die silber eloxierten aluminiumprofile haben frontal entsprechende einstecknuten für textiltbanner mit silikonlippe. frontal verbleiben vom aluminiumprofil nur 2mm als elegante umrahmung des bannerns sichtbar. versteift wird das system mit aluminium-traversen, die jederzeit ohne demontage des rahmens positioniert werden können.

EN framframe wall is perfect for the stylish wall decoration with fabric banners. the silver anodized aluminium extrusions have on the front the required notches to insert textile banners with a silicone seam. only 2mm of the aluminium profile will remain visible, thus elegantly framing the banner, the system can use struts as cross beams made of silver anodized aluminium, that can be positioned every time without any disassembling of the frame to keep the banner under tension.

framframe floor

MADE IN EU design by KD

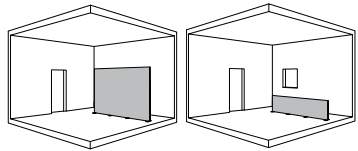

IT framframe floor può essere utilizzato con banner in tessuto mono- o bifacciali per creare espositori da terra autoportanti. i banner in tessuto sono sostituibili in modo veloce e in qualsiasi momento senza bisogno di smontare la struttura e ricorrere ad utensili. funge da parete divisoria, elemento decorativo o spazio pubblicitario. frontalmente sono visibili solo 2mm della cornice: i motivi rappresentati danno quindi l'idea di essere sospesi – la cornice passa in secondo piano.

DE framframe floor können sie ein- oder beidseitig mit textilen bannern für dekorative freistehende bodendisplays verwenden. die bedruckten stoffbanner können sie jederzeit schnell, ohne demontage und ohne werkzeug austauschen. ideal als raumteiler, dekoratives element oder werbefläche. frontal gesehen sind nur noch 2mm rand von der struktur sichtbar: die motive wirken autonom - das system hält sich diskret im hintergrund.

EN framframe floor you can use single- or double side with fabric banner for decorative freestanding floor displays. the printed banners can be exchanged quickly anytime without any tools. perfect as a partition, decorative element or advertising space. from the head-on view you see only 2mm of the structure: the images act for themselves - the framframe system steps back discreetly.

wood frame

MADE IN EU design by KD

IT wood frame completa la nostra famiglia di cornici per tessuti. i profili sono tagliati in modo obliquo e donano al banner un look inimitabile grazie al rivestimento in legno o alla laminatura effetto legno. questa lavorazione garantisce alla cornice massima stabilità e impedisce ogni tipo di deformazione. per ottenere la perfetta tensione del banner basterà fissare il bordo in pvc del banner in tessuto nelle apposite fessure. grazie alle diverse tonalità di legno, wood frame le consentirà di ottenere sempre l'effetto desiderato dando all'ambiente uno stile particolare, caldo ed elegante. perfetto per ogni location.

DE wood frame komplettiert unsere rahmenfamilie für stoffbanner. die eleganten rahmen sind auf geührung geschnitten und bestechen durch ihr klares, zeitloses design. die rahmenprofile aus aluminium werden echtholz furniert oder mit holzoptik laminiert und erreichen so maximale stabilität garantiert ohne verformen. in die nuten wird der keder der textilbanner einfach eingesteckt und das banner perfekt gespannt. ob hell, dezent, kräftig, warm oder edel: wood frame bietet für jedes moderne ambiente den passenden rahmen.

EN wood frame completes our family of frames for textile banners. the edges are mitred at 45° and directly connected. the frames convince with their lean and timeless design. the aluminium profiles are veneered with solid wood or laminated in wood look, the aluminium guarantees maximum form stability, the silicone seam of the fabric banner is simply inserted into the front notches and then perfectly tensioned into shape. whether light, cool, warm or elegant: wood frame has the perfect match for every ambience.

clip per il montaggio a muro inclusa nel volume di consegna. fissare la clip sul lato interno del profilo con del nastro biadesivo e agganciarla alla vite montata sul parete.

frame univers clip

MADE IN EU design by KD

Il frame univers rende possibile esporre banner in tessuto in modo semplice e veloce senza guarnizione o altro tipo di rifinitura della stoffa: basterà stampare il banner, stenderlo sulla cornice, fissarlo ad essa utilizzando il profilo in pvc trasparente e infine tagliare il tessuto in eccesso. il profilo in pvc può essere riutilizzato e blocca la stoffa. questo sistema le farà risparmiare tempo grazie al taglio del banner non solo preciso, ma anche semplice e veloce. il profilo in alluminio viene collegato con angoli stampati ad iniezione in materiale plastico tagliati perfettamente a 90° gradi. i profili in pvc vengono tagliati in modo obliquo.

DE frame univers kann textilbanner ohne keder oder konfektionierung schnell und einfach präsentieren: den banner drucken, über den rahmen legen, mit dem transparenten pvc-profil befestigen und den bannerüberstand exakt abschneiden. das pvc-profil ist wiederverwendbar und klemmt den stoff ein, sie sparen zeit, da der bannerzuschnitt im rahmen nicht nur exakt passgenau ist, sondern schnell und einfach geht. das aluminium profil wird mit spritzguss-ecken aus kunststoff immer exakt im 90° winkel verbunden. die pvc-profile werden auf geührung geschnitten.

EN frame univers can display textile banners without seams or other settings quickly and easily: print the banner, lay over the frame, fix with the reusable pvc-laces and cut the overlapping banner exactly. the pvc-laces are reuseable and fixes the print. you save time because the banner cut directly in the frame is not only accurately fitting but also quick and easy. the aluminium profiles are connected with synthetic die-cast corner joints always perfectly with 90°. the pvc-laces are mitered.

frame univers lips

MADE IN EU design by KD

IT per fissare il banner alla cornice, frame univers offre la possibilità di utilizzare anche la classica guarnizione di silicone: basterà cucire o incollare quest'ultima al banner e inserirla nel profilo, un sistema intelligente, che le consente di applicare il banner con semplicità e di cambiarlo velocemente. I connettori degli angoli, arrotondati e in materiale plastico, donano al sistema un look moderno.

DE in den stoffbanner-rahmen frame univers können stoffbanner auch mit dem klassischen keder-system befestigt werden, einfach keder auf den stoff aufnähen oder aufkleben und in die einstecknut des rahmensystems eindrücken, so können stoffbanner schnell und einfach eingesetzt und wieder ausgetauscht werden, moderner look durch abgerundete eckverbinder in kunststoff.

EN by using the frame univers you also have the option to fix the textile banner using the classic silicone strips, just sew or stick the strip on the fabric banner and push it on the frame system, this system makes the exchange of the banner quick and easy, modern look thanks to rounded corner joints in die-cast synthetic.

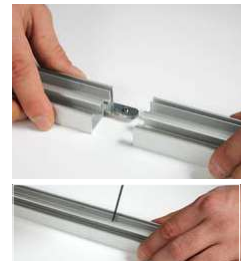

ogni set contiene 2 profili della stessa lunghezza uno per lato, altezza e larghezza possono essere combinate come preferisce

je set 2 profile gleicher länge für je eine seite, kombinieren sie selbst höhe und breite nach wunsch

each set contains 2 profiles with same length for one side each, combine height and length at wish

panel lips

MADE IN EU quality control by KD

IT presentare pannelli rigidi su una cornice per banner in tessuto? con il nostro estruso in pvc panel lips è un gioco da ragazzi: basta tagliare su misura i panel lips semi trasparenti, appoggiare il pannello sulla cornice, sovrapporre i panel lips e premere, incastrando così il pannello. i panel lips semi trasparenti si sovrappongono al pannello di soli 3mm.

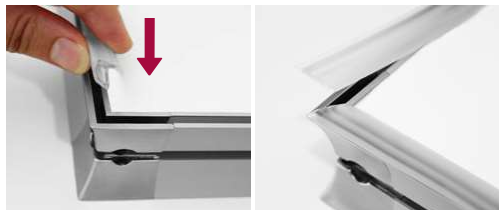

DE paneele auf einem textil-kederrahmen präsentieren? mit unserer kunststoff litze panel lips geht das im handumdrehen: die opak-transparenten panel lips werden einfach nach bedarf abgelängt, die paneele auf den rahmen gelegt und mit der litze mittels druck sicher verklemt. die halb-transparenten panel lips halten sich mit 3mm überlappung auf dem paneel dezent im hintergrund.

EN display rigid panels on a frame for textile banners? with our pvc-lace panel lips this is a piece of cake: just cut the semi transparent panel lips to your needs, place the panel on the frame and seize it safely by pressing the lace on it, the milky panel lips are almost invisible with just 3mm overlapping the panel.

posizionare il pannello sulla cornice
paneel in den rahmen legen
place the panel on the frame

tagliare l'estruso in pvc a misura
pvc-dichtung auf gewünschte länge zuschneiden
cut the pvc-lace to requested length

per fissare il pannello, premere l'estruso in pvc
zum fixieren des paneels, pvc-dichtung eindrücken
press on the pvc-lace to fix the panel

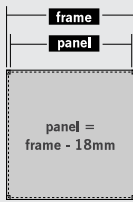

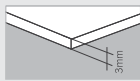

per il ricambio: estrarre l'estruso e togliere il pannello
zum austausch litze abziehen und das paneel entnehmen
for exchange move off the lace and take out the panel

information

estruso in pvc flessibile e semi trasparente per tutti i tipi di pannelli rigidi con spessore di 3mm

flexibel, opak-transparente pvc-litze für alle starren paneele mit 3mm stärke

flexible, semi-transparent pvc-lace for all rigid panels with 3mm thickness

advantages

- montaggio semplice
einfache montage
easily mounted
- velocemente intercambiabili senza bisogno di attrezzi
schneller austausch ohne werkzeug
quickly exchangeable
- discreti perché semi trasparenti con sovrapposizione di soli 4mm
unauffällig da halb-transparent und nur 4mm überlappung
unremarkable semi-transparent and only 4mm lap
- riutilizzabili
wiederverwendbar
reusable

disponibile su bobine con 25m o 50m
erhältlich auf rollen mit 25m oder 50m
available on spoils with 25m or 50m

NEW

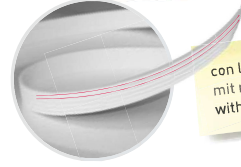

- ↳ sottile e semplice da cucire grazie alle linee guida sulla fascetta antiscivolo grazie all'incavo presente sul profilo della cornice
- ↳ extra flach, mit nährführung, anti-rutsch ritlen im Keder
- ↳ extra flat, easy to sew with needle guidance, with anti-slip rills

frame lips

MADE IN EU quality control by KD

1 frame lips for easy stitching
fascette in pvc bianco da cucire, lunghezza bobina 80m
weisser pvc flachkeder zum nähen, länge: 1 rolle 80m
flat pvc strips for stitching, white length: 1 roll 80m

con linee guida per la cucitura mit nährführung with guidance for needle

II **fascetta da cucire:** la fascetta in pvc cucita al bordo del tessuto permette il rapido e semplice cambio della stampa. iniziare l'applicazione del tessuto nel profilo inserendo la fascetta in pvc partendo da un angolo e proseguendo frontalmente verso l'altro angolo.

fascetta adesiva: fascetta adesiva in pvc ideale per tessuti di piccolo formato. con questa fascetta adesiva offriamo una valida alternativa alla cucitura della fascetta al banner.

DE flachkeder zum nähen: durch den pvc flachkeder, der an den stoffbanner angenäht wird, können sie stoffbanner schnell und einfach austauschen. drücken sie den textilen banner mit flachkeder einfach von den ecken ansetzend frontal in die einstecknut des rahmensystems ein.

selbstklebender flachkeder: der selbstklebende pvc flachkeder ist insbesondere für kleinformatige stoffbanner geeignet. wir bieten mit dem selbstklebenden keder eine alternative für das handelsübliche annähen des keders an den stoffbanner.

EN flat pvc strips: you can exchange the fabric banner quickly and easily through the flat pvc strips, which is sewn on the fabric banner, push the textile banner with banner lips frontally, starting from the corners, into the slot of the frame system.

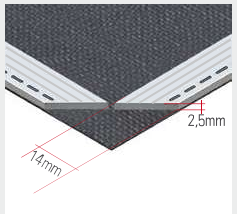

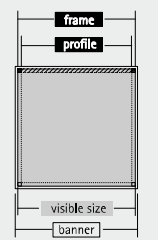

self adhesive pvc strips: the self-adhesive pvc strip is particularly suitable for small-scale fabric banners. the adhesive lips are a perfect alternative to the usual version that needs to be stitching to the banner.

2 frame lips adhesive
fascette in pvc adesive, lunghezza bobina 80m
pvc flachkeder selbstklebend, länge: 1 rolle 80m
self-adhesive pvc strips, length: 1 roll 80m

information

frame length = profile + 60mm

inserire il banner di tessuto con le strisce di silicone partendo dagli angoli.

lumo

MADE IN EU design by KD

IT Lumo è il pannello illuminato da parete di prima classe. il pannello in acrilico di 8 mm al contrario dei pannelli serigrafati è inciso e questo garantisce una regolare ed uniforme illuminazione anche nei formati più grandi. i led che utilizziamo per Lumo sono di alta qualità e garantiscono una lunga durata d'impiego. il foglio protettivo flessibile in policarbonato è resistente ai raggi uv e grazie al sistema di chiusura magnetica può essere sollevato in parte o completamente, rendendo così il cambio del manifesto rapido e semplice. il bordo laterale di 30mm serigrafato di colore nero è discreto e nel contempo elegante.

DE Lumo für die wandmontage ist ein extra flaches leuchtpanel der sonderklasse. das 8mm starke acryl ist graviert und somit garantiert es im gegensatz zum siebdruck die gleichmässige und vollständige ausleuchtung der gesamten fläche. die hochwertigen LED haben eine sehr lange lebensdauer. die transparente und flexible folie aus polycarbonat ist uv-beständig. durch den magnetverschluss ist sie teilweise oder auch komplett abnehmbar und der austausch der information ist damit jederzeit schnell und unkompliziert möglich. das schwarze siebdruck passepartout ist mit geringen 30mm sehr dezent gehalten.

EN Lumo for wall mounting is a special flat high quality light panel. the 8mm thick acrylic is etched and guarantees, unlike screen printed glass, a perfect and uniform illumination of the whole panel. the high-grade LED have a very long lifetime. the transparent and flexible cover sheet in polycarbonate is uv-resistant. thanks to the magnetic closing, the cover sheet can be removed partly or even completely, making the exchange of the poster quick and easy anytime. the black serigraph edges are very discreet at only 30mm.

magsee

MADE IN EU quality control by KD

IT gli espositori magsee sono veloci da montare e sono dotati di un sistema di fissaggio del banner brevettato a calamita, alla stampa viene applicato a pressione un profilo di metallo, il cambio dell'informazione è semplice e molto veloce, il grande vantaggio: a differenza di quanto accade con i roll up il cambio del banner è facile anche per i più impacciati, la struttura invoglia al riutilizzo e la comunicazione può essere anche bifacciale, il sistema è più flessibile rispetto agli ordinari roll up anche per quanto riguarda i materiali di stampa: oltre che su carta i banner magsee possono essere stampati su pvc, grazie a questi materiali alternativi e alle possibilità di riutilizzo magsee si afferma come soluzione alternativa sostenibile.

DE magsee displays sind schnell aufgebaut und haben eine patentierte druckbefestigung mit magnet: die metallschiene wird einfach mit dem druck verpresst, der wechsel am display selbst ist dann ganz einfach und sehr schnell, der grosse vorteil: im gegensatz zu üblichen roll ups ist der drucktausch auch für den laien kinderleicht, die struktur bleibt in verwendung und kann auch noch doppelseitig genutzt werden, auch bei den druckmaterialien sind sie flexibler als bei den üblichen roll up systemen: neben papier funktioniert magsee auch perfekt mit pvc, dank dieser alternativen print-materialien und der guten mehrfachnutzung der struktur, empfiehlt sich magsee als nachhaltige display-alternative.

EN magsee displays are set up in no time and have a patented print fixing with magnet: the metal rail is simply pressed to the print, the banner exchange at the display is then very easy and really quick, the advantage for you: compared to the normal roll ups the banner exchange is easy as a pie also for the ordinary user, the structure is used furthermore and is also double-side applicable, even regarding the banner material you are more flexible as with a roll up: besides pvc you can use paper or fabric with magsee, thanks to this alternative print materials and the multiple utilization of the structure magsee recommends itself as a sustainable alternative floor display.

digipressto

MADE IN EU design by KD

IT digipressto è straordinario: grazie a lui i vostri pannelli potranno diventare indicatori di direzione, banner pubblicitari, divisori di spazio o elementi decorativi per interni ed esterni. utilizzate a piacere la base in alluminio con pannelli di 30 mm: grazie alla sua speciale conformazione, pannelli di qualsiasi materiale rimangono stabili e dritti sulla base. digipressto si apre e si chiude grazie ad una vite a testa zigrinata che tiene uniti i 2 profili. i feltrini compresi nella confezione proteggono il pannello e rendono la base anti-scivolo e più stabile. nella versione in alluminio anodizzato color argento digipressto è disponibile già montato nei formati più comuni. il programma di accessori comprende tappi laterali in colore nero e 2 versioni laccate in nero rispettivamente di 100mm e 200mm (con tappi laterali neri).

DE eine tolle sache: mit ihrem paneel wird digipressto zum hinweisschild, werbebanner, raumteiler oder dekorativem element im innen- und aussenbereich. kombinieren sie das aluminiumprofil mit paneelen der stärke von 30mm. unterschiedlichste materialien werden gleichmässig eingespannt. geöffnet und geschlossen wird digipressto mittels rändelschraube, integrierte gummilitzen schützen ihr panel und geben rutschfesten stand. in silber eloxierter ausführung sind die gängigsten längen vormontiert, im zubehör programm finden sie schwarze seitenabdeckkappen, ausserdem im programm: 100mm bzw. 200mm mit schwarzer pulverbeschichtung und abdeckkappen.

EN digipressto is really great: together with your panel digipressto becomes a signpost, an advertising banner, a partition wall or a decorative element in interior and exterior areas. combine the anodized aluminium profile with panel from 30mm, the special construction gives digipressto maximum flexibility: materials are shut in safely by digipressto. open and close the profile easily with the knurled head screw. integrated rubber laces protect your panel and act as anti-slip pads as well. the most standard lengths come already mounted. black side caps can be ordered as an accessory. furthermore we provide you with 100m and 200mm lengths black powder coated and with side caps.

pylo outdoor

MADE IN EU design by KD

IT pylo outdoor è concepito e realizzato appositamente per l'esterno: a seconda della collocazione, la struttura può essere interrata, ancorata o cementata al suolo. i pannelli in alluminio possono essere stampati o decorati con pellicole, prespaziati, vinili, ecc. i pannelli, così come i profili in alluminio anodizzato e gli angoli stampati a pressofusione, sono di alta qualità e duraturi nel tempo. pylo outdoor è disponibile in tre differenti larghezze.

DE pylo outdoor ist speziell für den aussenbereich gemacht: die bodenhalterung wird je nach untergrund angeschraubt oder einzementiert. die aluminium-paneele können sie je nach anforderung bedrucken oder kaschieren. sie sind wie die ebenfalls silber eloxierten aluminiumprofile sowie die veredelten metalldruckguss-ecken hochwertig und langlebig. erhältlich ist der pylo outdoor in drei verschiedenen breiten.

EN pylo outdoor is made especially for outdoor use: the ground sleeve can be fixed with screws or concrete according to your underground. the silver anodized aluminium panels can be printed or laminated. like the silver anodized profiles and the plated zinc aluminium alloy die-cast connectors they are robust and durable. the pylo outdoor is available in three different sizes.

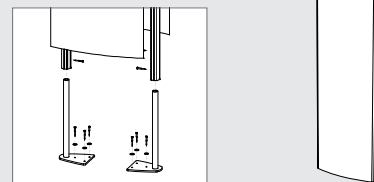

information

profili e pannelli: alluminio anodizzato color argento, angoli in pressofusione, zanche da terra in ferro zincato.

profile und paneele: silber eloxiertes aluminium, verbinder veredelter aluminiumdruckguss, bodenhülse eisen verzinkt

panel and profiles: silver anodized aluminium, connectors plated die cast aluminium alloy, ground sleeve zincod iron

y-display aluminium and plastic, base refillable, transport bag incl.

outer

MADE IN SOUTH KOREA quality control by KD

IT state cercando un espositore particolarmente stabile e sicuro per le vostre stampe digitali in esterno? in questo caso vi consigliamo il nostro outer. la base in materiale plastico può essere riempita con acqua o sabbia in modo da dare stabilità all'espositore. grazie alla sua particolare struttura potete utilizzare outer per banner di lunghezza e larghezza variabili. ciò viene reso possibile dalla sua asta telescopica e dai bracci laterali flessibili. i bracci superiori sono mobili, non fissi, cosa che rende il montaggio del display estremamente facile e veloce. la struttura di outer è in materiale plastico mentre le barre sono in alluminio: outer è dunque molto leggero. dopo l'utilizzo svuotate la base e riponete struttura e base nella pratica sacca per il trasporto, inclusa nella confezione.

DE sie suchen für ihre digitaldruckpräsentation im aussenbereich ein besonders stabiles display? für diesen fall bieten wir ihnen outer. die kunststoff-basis mit wasser oder sand befüllen und schon wirft den outer so leicht nichts mehr um. dank der besonderen konstruktion können sie banner sowohl mit variablen breiten wie längen präsentieren. teleskopauszug und flexible bannerstreben machen es möglich. die oberen bannerstreben sind mit dem auszug beweglich verbunden, so dass ihr outer mit wenigen handgriffen aufgestellt ist. outer ist bis auf die aluminiumstange komplett aus kunststoff, das spart gewicht. nach dem einsatz entleeren sie einfach die basis und verstauen alle teile in der mitgelieferten praktischen tasche.

EN looking for a stable outdoor bannerdisplay? then outer is the right choice, fill the plastic base with water or sand and your outer will stand firm and secure. thanks to its special design, outer is suitable for banners with variable width and height, a telescopic pole and the flexible banner bars render this flexibility possible. setting up is easy as the banner bars are already connected to the pole. made of plastic and aluminium, outer is a lightweight. after the job just empty the base and store all parts in the transport bag provided.

regolare la barra di fissaggio inferiore a seconda della larghezza del banner.

l'asta telescopica e i bracci di sostegno laterali si inseriscono nella base.

die untere befestigungsschiene auf die bannerbreite einstellen.

das teleskopstativ mit den bannerstreben wird in die basis gesteckt.

adjust the lower rail to banner width.

the telescopic pole with banner bars is inserted into the base.

banner not included

IT angelframe rimane discreto ed invisibile nella parte posteriore delle vostre stampe digitali di grande formato, dandovi così la possibilità di esporre le vostre presentazioni senza cornici laterali. gli angoli vengono avvitati direttamente, e quindi in modo decisamente sicuro, sui profili; per questo motivo non c'è bisogno di tagliare i profili a 45°. dadi e clip per banner possono essere inseriti nel profilo anche dopo aver effettuato il montaggio, il bordo del banner viene agganciato alla parte posteriore del profilo: il fissaggio posteriore vi permette di nascondere facilmente eventuali irregolarità del banner. il montaggio di angelframe vi farà risparmiare tempo e denaro: lo stesso cambio del banner, grazie al design e alla funzionalità intelligente, è facile, veloce e attuabile senza l'utilizzo di utensili.

DE angelframe hält sich bei den large-formats dezent unsichtbar im hintergrund und präsentiert ihr big-format rahmenlos, die ecken werden direkt und damit besonders stabil mit dem profil verbunden, profile können gerade und ohne gehrung geschnitten werden. die nutsteine lassen sich einklicken, ebenso wie die bannerclips, d.h. auch schon montierte rahmen können noch ergänzt werden. der bannerrand wird über das rahmenprofil gezogen und bleibt unsichtbar, ungenauigkeiten bei zuschnitt oder säumung fallen damit nicht mehr auf. insgesamt ist die montage zeit- und kostensparend, ebenso der banner-austausch ist durch das clevere design unkompliziert und ohne werkzeug jederzeit möglich.

EN angelframe is backstage when it comes to presenting large-formats. the structure holds your banner framelessly, the edges are directly and firmly connected to the extrusions so it is not necessary to mitre the profiles. the threads for wall fixing and the banner clips can be clicked in to place even after mounting. the banner seam is pulled over the frame profile, thus hiding imprecise cuts or seams. all in all, the mounting saves time and money, the banner exchange is easy and does not require tools and is possible at anytime.

montare il gancio a parete, fissare i dadi nel profilo - siccome non vengono inseriti nella cava, è possibile aggiungerne anche dopo aver terminato il montaggio della struttura, fissare il profilo al gancio, distanza dalla parete del banner: 130mm

montage der wandhalterung, nutstein einklicken - da kein ein-schub, ist das auch nach (!) erfolgter montage möglich - profil montieren, wandabstand banner: 130mm

mount the wall support, click in the washer - thanks to this you can click in more washers also after (!) mounting - fix the profile, wall distance for banner: 130mm

agganciare le clip al profilo, nella quantità desiderata, prima o dopo il montaggio della struttura; gancio per elastico che ne semplifica l'assemblaggio e lo mantiene perfettamente in tensione.

banner clips einfach ans profil klicken, jederzeit und so viele wie nötig, auch nach der montage. mit führung für das gummi-kabel: erleichtert das spannen und verhindert herausrutschen.

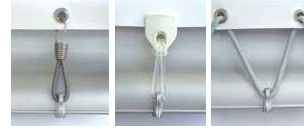

simply click the clips to the profile, anytime and as many as you need, even after assembling of the structure, with channel for the elastic cord: eases the tightening of the cord and prevents it from slipping out.

montaggio ad angolo del banner senza pieghe: funzionalità intelligente fin nei più piccoli dettagli. gli angoli sono provvisti di scanalature nelle quali inserire agevolmente il banner, in questo modo potrete tensionare il vostro banner comodamente e facilmente.

faltentfreie eck-montage: cleveres design auch hier, die eckverbinder haben eine nut, in die sie einfach die bannerecken ziehen, so spannen sie ihr banner im no faltentfrei und sauber!

crease free mounting of the angles: the clever design provides a solution as well, all the edge connectors come with a slot where you simply pull through the banner ends, thus you tighten your banner quickly crease free and neat!

come per monsterframe, il sistema angelframe vi offre varie possibilità per il fissaggio del banner al profilo, si veda pag. 243

gleich wie monsterframe hat auch angelframe diverse banner-befestigungsmöglichkeiten, mehr auf s. 243

like monsterframe angel has also different possibilities to fix the banner, see p. 243 for more details

il connettore angelframe, per composizioni modulari, deve essere fissato ad un gancio murale, i profili risulteranno così connessi grazie a questo accessorio, in caso di utilizzo del connettore AFCON2, considerare 10mm in meno, per ogni connettore, sulla lunghezza dei profili.

der connector für die modulare gestaltung muss an einer wandhalterung angebracht werden, die profile werden mittels connector verbunden. bei verwendung der binder AFCON2 muss die profillänge je verbinder um 10mm gemindert werden.

the connector for modular design of angelframe must be mounted directly to the wall mounting support, the profiles can then be connected directly, when using connectors AFCON2 calculate 10mm less profile length for each connector used.

information

leoframe

MADE IN EU design by KD

IT leoframe è un sistema a scomparsa, ideale per interni ed esterni, particolarmente robusto e che può essere utilizzato come sistema mono- e bifacciale. i banner vengono fissati lateralmente sul profilo grazie ad un listello decorativo. affinché leoframe possa essere utilizzato anche come sistema autoportante, in loco durante il montaggio sono da prevedere strutture ausiliarie. le traverse, con un angolo di 90° o 45° possono essere aggiunte alla struttura anche dopo l'installazione del sistema, senza doverlo rimontare, grazie a questi connettori, leoframe può essere utilizzato anche per realizzare strutture tridimensionali.

DE leoframe für den innen- und aussenbereich ist ein besonders stabiles rahmenloses system. sie können es ein- oder doppelseitig einsetzen. die banner werden mit einer dekorschleife seitlich befestigt. für die freistehende verwendung sind bauseitig entsprechende strukturen vorzusehen. traversen können im 90° oder 45°-winkel jederzeit auch nachträglich ohne demontage des rahmens eingesetzt werden. dank dieser verbinder kann leoframe sogar für dreidimensionale strukturen verwendet werden.

EN leoframe is a very stable frameless system for in or outdoor. you can use it both single or double-sided, banners are mounted with a lateral fixing lace, for the freestanding structures the required mounting must be provided by customers. cross beams can be mounted with 90° or 45° anytime without any disassembling of the frame. thanks to the special connector design even 3 dimensional structures are possible.

appoggiare il banner e inserire il listello di fissaggio

banner und befestigungssitze anlegen
position the banner and the fixing lace

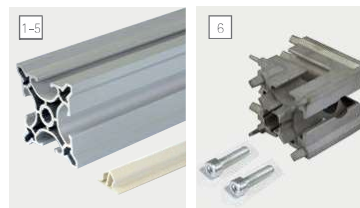

spingere il listello nella cava del profilo con un martello di gomma

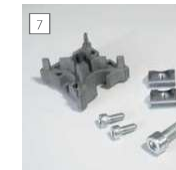

litzte mit gummihammer einschlagen
fix the lace using a rubber hammer

stormflag drop medium

stormflags

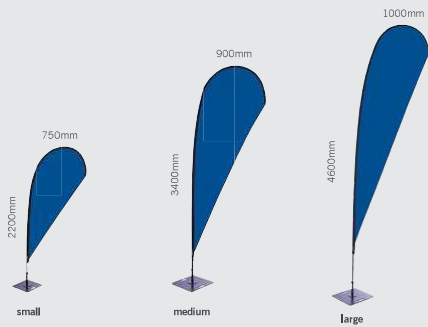

I le bandiere stormflags sono state concepite per il duro utilizzo e hanno già dimostrato migliaia di volte il loro valore in condizioni estreme. niente strutture in alluminio, ma aste in fibra di vetro come quelle delle tavole da windsurf: questo è il segreto, insieme alla speciale costruzione del porta bandiera delle originali. per la stampa bifacciale della bandiera lavoriamo su richiesta anche in block out. in questo modo l'immagine sarà visibile su entrambi i lati e mai al rovescio. ordina le stormflags in sistema modulare per negozi, centri commerciali, sedi aziendali o stabilimenti balneari, dalle piccole per applicazioni indoor alle grandi per outdoor e eventi, per l'utilizzo tutto l'anno o per lo stagionale, con layout permanente o sempre nuovo, in versione monofacciale o bifacciale: abbiamo sempre la bandiera perfetta, sia per forma che per necessità di applicazioni.

DE stormflags sind für den harten einsatz konzipiert und haben sich bereits unter härtesten bedingungen tausendfach bewährt: keine alu-pfosten, sondern masten aus fiberglas wie bei windsurfer-boards und die spezielle konstruktion der flaggen halter machen den unterschied beim original. bei doppelseitigem druck arbeiten wir auf bestellung auch mit block out, damit ihre marke immer richtig und nicht spiegelverkehrt gesehen wird. bestellen sie stormflags im baukastensystem für ihre shops, shopping malls, das firmengebäude oder als beachflags. von klein für indoor bis groß für outdoor und events, ob 365-tage einsatz oder saisonal, beständiges oder wechselndes motiv, ein- oder doppelseitig: sie finden bei uns für jeden zweck die perfekte fahne in form und ausstattung.

EN stormflags are made for the tough application and are well-approved in thousandfold cases under the hardest conditions: no aluminium posts but masts made of fibre glass similar to those used in wind surfing and the particular flag support design make the difference. for double side flags you can order extra block out print in order to display your brand from both sides correctly and not mirror inverted. order your stormflags in a modular system for your shops, shopping malls, head office or as beachflags. whether small for indoor or big for outdoor and event, whether 365-days or only seasonal, permanent or changing layout, single or double side: we have the perfect flag in form and configuration for every application.

tripole & giantpole

MADE IN SOUTH KOREA quality control by KD

IT sono mobili ma robusti e con un'altezza rispettivamente di 5,4 mt (giantpole) e 4 mt (tripole) si fanno proprio notare, non importa che sia per manifestazioni sportive, eventi culturali, fiere, convegni o promozioni pubblicitarie, giantpole e tripole creano un bel colpo d'occhio. l'asta per la bandiera e i sostegni laterali sono in alluminio anodizzato, la base in materiale plastico può essere riempita di acqua o di sabbia, quando la base è riempita completamente, giantpole e tripole possono essere utilizzati all'esterno con un vento massimo di 14m/s (50,4 km/h). inserire il portabandiera sulla base, attaccare la bandiera, allungare l'asta e il gioco è fatto. base e asta non sono vendibili singolarmente.

DE mobil, stabil und robust sind giantpole und tripole, bei einer höhe von 5,4m (giantpole) bzw. 4m (tripole) fallen sie ganz sicher auf, egal ob sportveranstaltung, kulturevent, messe oder werbeaktion, die mobilen giant- und tripole sind ein echter hingucker, fahnenstange und gestänge sind aus eloxiertem aluminium, die kunststoff-basis kann mit wasser oder sand gefüllt werden, mit gefüllter basis halten giant- und tripole windgeschwindigkeiten bis zu 14m/s (50,4km/h) stand. gestänge in die basis stecken, fahne befestigen und den mast ausziehen, fertig, basis und mast können nicht einzeln bestellt werden.

EN mobile, stable and robust are giantpole and tripole, with 5,4m (giantpole) and 4m (tripole) you will attract attention for sure, whether sporting or cultural events, fairs, open houses or sales promotions, the mobile giant- and tripole will catch everybody's eye for sure, pole and bars are made of anodized aluminium, the plastic base can be filled with water or sand and when filled giant- and tripole withstand wind speed up to 14m/s (50,4km/h), set base and pole together in no time, mount the flag and extend the telescopic flagstaff, that's it.

in materiale plastico e alluminio anodizzato, anelli per il fissaggio inclusi.
